**Languages:** French (*mother tongue*), English (*full professional proficiency*).

**Langages :** Java, Python, PHP, SQL, C, C#, HTML, CSS, JavaScript/jQuery, TypeScript, Shell, Bash.

**Technologies :** Spring Boot, Angular, NSIS.

**Systems:** Windows, Windows Server, Linux.

## Education

- **Bachelor's degree – Computing and Systems** orientation Networks and Telecommunications *2018 – 2021*  
Haute École en Hainaut, Mons, Belgium

Relevant assets learn: routing and switching, development web-android, object oriented design, algorithms, relational database, data structures, software development.

13-week internship at Technord where I created an installer with NSIS to simplify and accelerate the installation of software and a experimental web application with Angular in order to verify the viability of a new product.

- **Masters degree – Computer Sciences** *2017 – 2018*  
Umons, Mons, Belgium

Relevant assets learn: computer operation, programming and algorithms, physics, mathematics.

During my studies I learned a lot in programming, which confirmed my passion and therefore my studies.

- **Saint-Luc institute – Photography/Art School** *2015 – 2018*  
Tournai, Belgium

CESS/BAC, Certificate of photography technician, Certificate of basic management.

During my studies I became more meticulous and more rigorous, it is the attention to detail that makes the photo magnificent.

## Professional Experience

- **Student Job – meat counter** *2019 – 2020*  
Carrefour EU, Froyennes, Belgium

During this experience I was able to improve my communication with customer contacts as well as familiarize myself working in large companies.

- **Stagiaire éclairagiste** *2012 – 2015*  
Jet Sound, H&D Technologie, Opéra Bastille, Belgium and France

These internship were superb: I was a child making his dreams come true. The best time for me was to be at the lighting console of a show.

## Projects

- **Naturopath** – School work finish (TFE – Bachelor's degree) *2021*

Creation of a web application - REST API: Naturopath which is a Wikipedia like. Users can view, add and edit pages. The administrators validate the content of the pages. Learn: Java avancé, Spring Boot, Swagger, Angular (TypeScript).

- **YouTube Playlist Checker** – Personal project in progress *2018 – 2020*

Creation of a web application : ypc.yt is a YouTube archiving site. Learn: PHP, SQL, database structure, creation of a web application/API from scratch, use of the YouTube API.

- **Game Engine** – Personal project in progress Soon™ *2018*

Creating a simple game engine. Learn: advanced Java/JavaFX, organization/architecture of a project.
