Odoo: Extensive experience in analysis, development, infrastructure, and support using Odoo.
Langages: Python, Java, SQL, C, HTML, CSS, JavaScript/jQuery/TypeScript, Shell, Bash.
Complementary Technologies: Docker, Spring Boot, Angular.
Systems: Windows, Linux, Windows Server.
Cloud: OVH, Oracle Cloud Infrastructure, CloudFlare.

Work Experience

Junior   *october 2021 –*
BizzDev, Tournai, Belgium

> Specialized in Odoo, I analyzed and estimated client needs, developed new features, integrated TFS for project management, and set up the infrastructure under Linux. I also provided client support.

Bachelor's internship   *february – june 2021*
Technord, Tournai, Belgium

> 13-week internship where I created an installer with NSIS to simplify and accelerate the installation of software and a experimental web application with Angular in order to verify the viability of a new product.

Student Job   *2019 – 2021*
Carrefour EU, Froyennes, Belgium

> During this experience I was able to improve my communication with customer contacts as well as familiarize myself working in large companies.

Certification

Oracle: Oracle Cloud Infrastructure 2023 Foundations Associate (1Z0-1085-23)
